WORK HISTORY

Intern – Empwr.edNEXT (Remote) — May 2025 – Nov 2025

- Conducted end-to-end beta-testing of the AI-based empwr.edNEXT platform for STEM subjects.
- Identified and reported platform bugs, usability issues, and edge cases across the full testing cycle.
- Collaborated with development teams to validate AI-driven features and ensure platform reliability.
- Contributed feedback on UX and learning flows to improve the STEM education experience.

PROJECTS

RailSense HTML5 · CSS3 · Vanilla JS · Indian Railways API
Modern train tracking & analytics dashboard with real-time insights, station status, and journey planning. Features real-time search, interactive route maps, PNR tracking, and a fully responsive premium UI.
Demo: rs-phi-inky.vercel.app **Repo:** github.com/ARIJIT-off/RAILSENSE

Polluture HTML5 · Vanilla JS · Leaflet.js · Chart.js · CountUp.js
Interactive map tool to draw custom zones on a real Kolkata map and calculate precise ecological impact. Computes AQI deterioration, groundwater drop, temperature rise, and Ecological Debt in INR per zone.
Demo: polluture.vercel.app **Repo:** github.com/ARIJIT-off/POLLUTURE

Movie-Heist Next.js · Tailwind CSS · Framer Motion · TMDB API
Full-stack cinematic movie discovery app with real-time TMDB data, smart debounced search, and genre filters. Includes PVR theater availability, 20+ OTT platform routing, and YouTube trailer embeds.
Demo: mh-flame.vercel.app **Repo:** github.com/ARIJIT-off/Movie-heist

MOViEON HTML5 · Vanilla CSS · Vanilla JS · Canvas API · qrcode.js
Dark-themed cinema ticket booking system for PVR INOX with AI-powered seat auto-selection engine. Full booking flow: interactive seat map, F&B cart, dynamic UPI QR payment, canvas-rendered downloadable ticket PNG.
